

# Master of Science in Data Analytics

**Level 9, 90 ECTS**

*(with the embedded awards of the Postgraduate Diploma in Science in Data Analytics, Level 9, 60 ECTS and the Certificate in Data Analytics, Level 9, 30 ECTS)*

**Programme Handbook**

2023/24

## Foreword

Welcome to DBS where we will help you realise your ambition. We have an international reputation for delivering a high-quality student experience and our intention is to do everything we can do to support you during your time with us.

Dublin Business School (DBS) is Ireland's largest independently owned, third level institution. Our campus is in Dublin's city centre and comprises four buildings where nationalities from over 95 countries participate in a bustling and thriving student life.

We offer programmes across a range of disciplines from business to data science, cybersecurity to artificial intelligence, marketing to psychology, accounting and finance through law, film, and creative media. We are committed to enabling strong academic outcomes through employer-led programmes and continuing to deliver an out-standing student experience.

The information contained in this handbook is crucial to your learning. It provides important information on your programme, your assessments, and the key individuals you will meet. For these reasons we want you to constantly read and refer to this handbook and use it as a key information source during your time with us.

We are dedicated to ensuring that you have a rewarding and fulfilling experience while studying at DBS and intend that, through your programme of study, you begin to realise your ambitions and your career goals.

Good luck on your journey!

*Tony*

Dr Tony Murphy

Academic Dean

## Section 1 Programme Information

### Welcome Message from Academic Director

Hello and a very warm welcome to Dublin Business School. My name is David Williams, and I am the Academic Director for your data analytics programme.

You have made the right choice on deciding to study at Dublin Business School. We are Ireland's largest independent third-level institution, offering a range of undergraduate, postgraduate, and professional programmes in ICT, Business, Arts and Law. Your choice to study data analytics will enhance your personal, academic, and professional development.

DBS has built on a reputation of "Excellence through Learning" and we pride ourselves on our ability to design and deliver programmes which are academically rigorous and innovative whilst ensuring they meet the demands of an ever-changing global business community. All faculty members are experienced tutors who are specialists in their chosen field. As well as being highly qualified academically, they also bring a wealth of industry experience to the classroom. Our tutors are actively engaged in consultancy and research and this feeds directly into your learning experience.

I look after the undergraduate programmes which include the BA (Hons) in Computing and the postgraduate programmes, the MSc in Business Analytics and the MSc in Artificial Intelligence. I work closely with your Programme Coordinator and your lecturers. Some examples of areas that I can assist with include:

- Academic planning and choices
- Navigating Moodle
- Assignments and Examinations
- Decisions around stream choices.

Your student portal is also a one stop shop for accessing your email, timetables and more. I would like to note the DBS email assigned to you. It is important that you correspond with DBS staff using this email only. We will send a number of important communications to this email during your studies. This information and more, is available in your Student Handbook, which can be accessed via [students.dbs.ie/academic](https://students.dbs.ie/academic) operations

It is appreciated that new students each have particular needs. This handbook is designed to provide you with much of the information you will require in the first few weeks of your programme of study. It will aid your study immensely if you familiarise yourself with the contents of this handbook and keep it somewhere safe. It is to be used in conjunction with the Module and Assessment Guides that you will also receive via Moodle. We hope you enjoy your time with us here in DBS and look forward to helping you during your learning journey. I am here to help you with the academic side of your programme from now until you graduate, and beyond.

Please do not hesitate to contact me on [david.williams@dbs.ie](mailto:david.williams@dbs.ie) if you have any questions.  
Best wishes to you all for a great year!

*David*

**David Williams**  
**Academic Director for Computing**

## 1.1 Programme Administration

If you have any questions or concerns about any aspect of your course, or a problem relating to any aspect of your time here at DBS you should contact your Course Director or Programme Coordinator. If they cannot tackle the question or problem themselves, they can help you identify the person who can, and they will refer you on to them. Below is short description of the people you will meet on your programme:

- **Academic Director**  
The Academic Director has responsibility for ensuring academic quality and standards for learners (particularly in the areas of teaching, learning and assessment). They are the academic lead in the discipline area and are a key contact point for programme team liaison and co-operation. They work to ensure programmes contain high quality teaching and learning and are committed to enabling strong employer-aligned, academic outcomes.
- **Assistant Academic Director**  
The Assistant Academic Director has responsibility contributing to programme development and delivery. They work across the discipline supporting the Academic Director to ensure the educational products delivered are of the highest quality.
- **Programme Level Manager**  
The PLM is responsible for coordination of the organisation and delivery of the programme, and for the management and support of learners on the programme. The PLM has an important role in mentoring learners and providing them with guidance and support on both academic and non-academic matters related to learner life. The core purpose of the PLM role is to provide professional leadership and management for an allocated subject area in order to facilitate teaching and learning and to secure effective use of resources.
- **Programme Coordinators**  
Programme Coordinators provide administrative support on programmes and ensure all learners are provided with full details of their programme of study. They are the first point of contact for learners on a range of issues such as programme queries, deferrals, personal mitigating circumstances (PMCs) that may affect their learning.
- **Module Leader**  
The Module Leader is the Lecturer responsible for the module. Their primary function is to lecture and assess learners on subjects or modules according to the programme document. Their duties and responsibilities relate to teaching, assessment, and completion of the module. Module leaders work hard to ensure a high-quality teaching and learning experience for all students.

## 1.2 Main Points of Contact for the programme

	Name	E-mail
<b>Programme Coordinator</b>	Danielle Fernandes	academicoperations@dbs.ie
<b>Course Director</b>	David Williams	david.williams@dbs.ie

### 1.3 Programme Team

In DBS, email addresses for lecturing staff are as follows: [firstname.lastname@dbs.ie](mailto:firstname.lastname@dbs.ie)

This is an indicative list and is subject to change.

Stage	Module	Module Leaders
Award	Programming for Data Analysis	Lauren Connell
Award	Statistics for Data Analytics	Shahram Azizi Sazi
Award	Machine Learning & Pattern Recognition	Satya Prakash
Award	Advanced Data and Network Mining	Terri Hoare
Award	Data Storage Solutions for Data Analytics	Shazia A Afzal / Bernie Lydon
Award	Data Visualisation	Kunwar Madan / Terri Hoare
Award	Applied Research Methods	Ciara Feeley
Award	Applied Research Project (for Masters students only)	Suitably Qualified Supervisors Appointed

*There are also other valuable points of contact and support in DBS such as [Student Services](#), the [Student Engagement and Success Unit](#), [Student Welfare and Support](#), [IT Helpdesk](#) and the award winning [DBS Library](#). Your [DBS Handbook](#) and the [DBS website](#) will contain more information on these and other great DBS services and supports.*

## Section 2 Programme Details

### 2.1 Aims of the Programme

This is an innovative programme with an integrated delivery from end-to-end covering a wide range of data analytics topics. The programme aims to develop learners' knowledge of the theory and practice of Data Analytics necessary for them to secure employment and perform at postgraduate level in the areas of ICT /Data Analytics in a broad range of commercial, industrial and public sector environments. Graduates will have an in-depth knowledge of the practical and theoretical aspects of data analytics. The programme enables and supports learners in developing critical analytical skills and in applying theoretical concepts to the practice of data analytics.

The programme incorporates Personal & Professional Development (PPD) within modules to enhance the student's employability, which will enable them to integrate seamlessly into an organisation by addressing skills such as leadership, self-management and teamwork that are essential in the area of Data Analytics. It also comprises a Research Methods integrated into the applied data analytics modules, focusing on literature review, research technique, and their application to real life situations, data sets and how applied research and entrepreneurship are linked. These modules will inform the learner's Dissertation, which requires the production of an artefact.

The specific programme aims are as follows:

1. To enable learners to develop expert knowledge and analytical skills in current and developing areas of analysis and statistics.
2. To provide learners with a deep and systematic knowledge of business and technical strategies for data analytics and the subsequent skills to implement solutions in these areas.
3. To facilitate the development by the learner of applied skills that are directly complementary and relevant to the workplace.
4. To identify and develop autonomous learning skills for the learner.
5. To develop in the learner a deep and systematic understanding of current issues of research and analysis
6. To enable the learner to identify, develop and apply detailed analytical, creative, problem solving and research skills.
7. Provide the learner with a comprehensive platform for career development, innovation and further study.

### 2.2 Programme Learning Outcomes

On successful completion of the MSc in Data Analytics programme graduates will be able to:

<b>MIPLO1</b>	Critically evaluate existing and emerging theory, methods, tools and technologies for acquiring, interpreting and analysing data glean actionable insights relevant to the data analytics.
<b>MIPLO2</b>	Exercise critical thinking in the planning for effective solution design and implementation of data analytics projects using relevant statistical, mathematical and business tools.
<b>MIPLO3</b>	Evidence proficiency in selecting a problem domain, applying the scientific method to formulating and testing hypotheses and experiments in the field, implementing practical solutions in the problem domain.

<b>MIPLO4</b>	Critically appraise the use of advanced skills and tools to effectively communicate (visualise) information from complex, structured and unstructured data sets.
<b>MIPLO5</b>	Critically appraise a problem domain and synthesise a solution from the broader selection of current and emerging methodologies, technologies and tools
<b>MIPLO6</b>	Evidence problem-solving skills to address real world problems through applied knowledge of contemporary data analytics skills.
<b>MIPLO7</b>	Critically analyse technical, economic, ethical and social implications of work to draw complex information together and extract policy implications.
<b>MIPLO8</b>	Interpret complex models and methodologies into unfamiliar situations in order to devise effective data driven solutions appropriate for strategic intelligence recommendations.
<b>MIPLO9</b>	Establish excellent communication, time-management, teamwork and leadership abilities for a professional environment.
<b>MIPLO10</b>	Critically synthesise knowledge and skills in a large-scale Applied Research Project, producing an artefact with data analysis at its core, demonstrating ability to assess, initiate, lead and manage work on complex technically-focused projects.

Learners who exit the programme with the *Postgraduate Diploma in Science in Data Analytics* share the Learning Outcomes set out above, with the exception of MIPLO 10.

Learners who exit the programme with the *Certificate in Data Analytics* share the Learning Outcomes 1-3 set out above.

## 2.3 Module Outline

### Module Level

Stage label	Module title	ECTS	Module synopsis
Award	Programming for Data Analysis	10	This module will show the learner how to use built-in data structures such as lists, dictionaries, and tuples to perform increasingly complex data analysis and use the internet as a source of data to scrape, parse, and read web data as well as access data using web APIs. The module will also explore how to store data as part of a multi-step data gathering, analysis, and processing and visualisation effort.
Award	Statistics for Data Analytics	10	This module aims to advance learners beyond a solid understanding of the fundamentals of statistical analysis to develop the critical and analytic ability to successfully apply statistical tools and techniques in the domain of data analytics. Learners will begin by reviewing descriptive statistics, probability modelling, and binary decision-making techniques, and generalized linear models (GLM).

Stage label	Module title	ECTS	Module synopsis
Award	Machine Learning & Pattern Recognition	10	Through the use of algorithms in pattern recognition and related exercises, this module will offer coverage of a range of contemporarily critical and emergent data treatments, some of which lead to deep machine learning approaches. The module will provide for the means to critically evaluate, extend, and apply, appropriate techniques to datasets exemplifying specific characteristics in order to compare the raw data and derive suitable and defensible results.
Award	Advanced Data and Network Mining	10	In a rapidly evolving field, there has recently been a resurgence of interest in graph networks to support relational reasoning and combinatorial generalization, laying the foundation for more sophisticated, interpretable, and flexible patterns of reasoning enhancing current approaches to Data Mining and Data Science. By enhancing data with related context, graph technology offers an effective means to empower the development of sophisticated AI applications. Applications, methodology and use cases in data mining, text mining and recommender systems are introduced and explored.
Award	Data Storage Solutions for Data Analytics	10	This module aims to advance learners beyond a solid understanding of the fundamentals of databases and data storage to develop the critical and analytic ability to apply data storage solutions in the domain of data analytics. Learners will begin by reviewing relational database design, development and interrogation with SQL.
Award	Data Visualisation	5	This module builds on principles and programming techniques covered in the programming for data analytics module and statistics for data analytics modules and provides the students with the knowledge and skills required to not only analyse the data but also to present it in a suitable format. It ensures that students can present data in a format that is insightful and understandable to the observer
Award	Applied Research Methods	5	This module sees to develop the learner's knowledge and understanding of the processes underpinning formal research. It provides coverage of research philosophies, strategies, designs, sampling, methods of data collection, while highlighting the ethical implications of, and the need for rigour in, Masters level research. Qualitative and quantitative data analysis techniques will be explored, equipping learners with the requisite skills to plan, investigate, analyse and present data using various qualitative and quantitative research methodologies.

Stage label	Module title	ECTS	Module synopsis
Award	Applied Research Project (for Masters students only)	30	This module aims to enable learners to consolidate their knowledge and skills in the completion of an industry research report and the preparation of an artefact. Learners will be able to produce a robust piece of industry research underpinned by academic theory, primary and secondary data collection and apply these skills in a coherent and industry-focused research report and artefact.

## 2.4 Teaching and Learning Strategy for a multi-modal environment

The teaching and learning (T&L) strategy refers to the teaching modes, approaches, and activities that the lecturer will use to help you work toward achieving the learning outcomes for the module.

Examples of T&L modes include:

Mode	Description
In-class	Where the lecturer and all the students are in the class
Live Online	Where the lecturer and all of the students are online at the same time
Hybrid	Where some of the students are online and some are in the class and the lecturer is either in-class or online
Pre-Recorded	Where the lecturer pre-records a session
On Demand	Where the lecturer has prepared teaching content or activities and made it available to you online for you to engage with at your own convenience

Examples of T&L approaches include:

Approach	Description
Lecture	Where the lecturer presents or talks about concepts, ideas, topics, or theories
Tutorial	Where the lecturer and students engage in a discussion
Workshop	Where the lecturer and students engage in activities either collectively or in groups
Lab Demonstrations	Where the lecturer or students demonstrate processes usually on a computer

Examples of T&L Activities include:

Activity	Description
Case Study	Students review real-world examples of what they are learning about
Guest Speaker	A practitioner talks about real-world examples of what students are learning about
Group work	Students are divided into groups to work on a particular activity
Peer Review	Students review and comment on other students' work
Peer discussion	Students engage in a discussion about a topic which the lecturer observes and can contribute to
Quizzes	Students work through a series of short questions
Practical Exercises	Students carry out an individual task during the class
Peer Presentations	Students present either individually or as a group to their fellow students

Controlled Debate	Students are divided into groups and argue the merits of a specific stance on a topic usually determined by the lecturer
Reading	Students engage in a reading activity and either write or report back on what they have read
Watching Videos	Students analyse videos and have peer discussions on what they have seen
Peer Pairing	Students are split into pairs. Individually they carry out a task and then swap their work for the other student to review.
Role Play	Students act out a scenario from the real world for the whole group

Typically, a timetabled class will take place in one mode or another, for example through online, in-class, recorded or hybrid mode. Although the on-demand mode can be used on its own or with any of the other modes.

Usually, the lecturer will adopt the same approach for the length of each timetabled class, so your class will be a lecture or a tutorial or a workshop or a demonstration. However, the lecturer may mix approaches during a class. So, for example, the timetabled class may start with a lecture before moving into the workshop and then finishing with a tutorial approach.

Lecturers can also draw on any of the activities above, and others not mentioned above, during a class whether it is online, hybrid or in-class. However, some activities and approaches are better suited to some modes.

You will find the specific details of which mode applies to which module in your online timetable as well as in your Module and Assessment Guides.

Should you have any queries, please do not hesitate to contact your Programme Coordinator or Module Leader.

## 2.5 Awarding Body and NFQ Level

This programme has been validated and approved by the Irish state agency, QQI (Quality and Qualifications Ireland), responsible for validating all third level programmes in Ireland. The programme is positioned at Level 9 on the National Framework of Qualifications (NFQ), a framework for the development, recognition, and award of qualifications in Ireland.

## 2.6 Other Relevant Programme Information

For learners who are unable to complete the Research capstone stage of the *Master of Science in Data Analytics* programme, there is an exit award available, the *Postgraduate Diploma in Science in Data Analytics*, which is 60 ECTS and positioned at Level 9 on the NFQ. Learners who fail their two opportunities on their Research capstone will be exited from the programme with the *Postgraduate Diploma*.

Learners who exhaust their opportunities on their second semester modules, or who are unable to progress with the programme, may be eligible to exit the programme with the Certificate in Data Analytics, an embedded exit award of 30 ECTS, positioned at Level 9 on the NFQ. Learners must

successfully complete the *Programming for Data Analysis*, *Statistics for Data Analytics*, and *Machine Learning and Pattern Recognition* modules to be eligible for this award.

Learners who wish to exit must apply to the Exams Office to be considered for exiting.

## Section 3 Assessment

### 3.1 Introduction to Assessment

The purpose of assessment is to ensure that you achieve the learning outcomes of each module. Learning outcomes are statements that specify what you will know or be able to do as a result of a learning activity. Assessment types will include practical, continual assessment, reports, group activities and exams.

It is important that you familiarise yourself with the format and number of assessments, assessment weighting, and due dates. These are published in the Module Guide which is available on [Moodle](#). An Assessment Brief is also published for each individual piece of continuous assessment. This will give details on the format, weighting, and due date, as well as set out what task you are required to complete in the assignment. It also gives the marking scheme for each assignment, and you should use this to guide your completion of the assignment.

All assessments are marked and graded by your lecturer and are reviewed by an internal moderator while the assessment process is overseen by External Examiners. This is to ensure fairness, consistency of marking and the correct standard across all assessments. Results are always provisional until they are approved by the External Examiner and are processed through the programme Exam Board. The purpose of an Exam Board is to formally ratify results and determine award classification (for more information please refer to the [Quality Assurance Handbook](#)).

The assessment schedule is below and Moodle syncs with the Student Dashboard to provide a calendar of deadlines. The schedule lists the due dates for all your assessments due over the academic year. The schedule ensures that the workload is balanced across the academic year. Any extension requests need to be considered in light of this schedule, as changes might risk clashing deadlines, so it is very important to be aware of the potential impact of changes to assessment dates. The exam timetable is published on the [exam page](#) in the DBS current student area and is usually available about four weeks in advance of the exam period.

### 3.2 Assessment Schedule

The table below highlights the breakdown of formative and summative assessment for this programme.

Module Name	ECTS	CA Component Breakdown	Feedback	CA %
Programming for Data Analysis	10	CA1 Portfolio of Class Work 60% CA2 Report 30% CA2 Presentation 10%  Formative Assessment: Given Week 5 and Due Week 6 Summative Assessment: Given Week 10 and Due Week 12	Oral and written	CA 100%

Module Name	ECTS	CA Component Breakdown	Feedback	CA %
Statistics for Data Analytics	10	Continuous Assessment 1 60% Exam 40%  CA1 (group assignment) 30% submission deadline: week 7  CA2 (Individual assignment) 30% submission deadline: week 13 Exam week 12	Oral and written	CA 60% Exam 40%
Machine Learning & Pattern Recognition	10	Design and implementation of a Machine Learning model 40% CA1 - 05 Nov 2023 CA2 - 17 Dec 2023 Image/Video/Audio processing Model Development 60%	Oral and written	CA 100%
Advanced Data and Network Mining	10	Continuous Assessment 1 30% Continuous Assessment 2 30% Exam 40%	Oral and written	CA 60% Exam 40%
Data Storage Solutions for Data Analytics	10	Continuous Assessment (Group): 70% Class Test (Individual): 30%	Oral and written	CA 70% Exam 30%
Data Visualisation	5	Continuous Assessment 1 (Individual) 40% CA2 (Group; Individual Lessons Learned) 60%  CA_One (40% weighting) due - 3rd Nov 23 CA_Two (60% weighting) due - 8th Dec 23	Oral and written	CA 100%
Applied Research Methods	5	Proposal & Presentation: 100% B9DA112 submission date for CA1 (100%) is the final week of term Friday December 15th	Oral and written	CA 100%
Applied Research Project (for Masters students only)	30	Oral Defence / Presentation 10% 10,000-word Research Report 50% Artefact/product Demonstration 40%	Oral and written	Supervised Project 100%

Module Name	ECTS	CA Component Breakdown	Feedback	CA %
		TBC		

All assessment in this programme conforms to the DBS assessment regulations informed by *QQI Assessment and Standards, Revised 2022*. Special regulations are defined on the course schedule. Where a learner is found to require additional learning support, the Disability and Inclusion Offer will identify appropriate support or liaise with the lecturer in conjunction with the Registrar’s Office, if necessary, to agree a suitable equivalent alternative assessment instrument. This will be in accordance with the DBS Assessment Regulations. Please refer to the DBS Quality Assurance Handbook (QAH) for further details.

### Assessment Submission

Your goal is to achieve the highest mark possible in your assessment. In order to do this, it is expected that learners:

- Complete ALL assessment components.
- Submit all assessments on time as indicated on the assessment specification.
- Complete all parts of each assessment.
- NEVER copy/plagiarise or submit content that is not yours by ensuring that you apply the correct referencing standard. DBS uses the Harvard Referencing style. A guide to this can be found [here](#).
- Always ask your lecturer if you are not sure about any requirements, not your fellow students.
- Always complete the required number of questions in an exam.
- Practice writing out answers for end of term exams by doing [previous papers](#), in particular practicing handwriting or typing answers (as per the exam format) to ensure that you are equipped to set out your answers within the format of the exam.
- Always write/type your ID number on any assessment or exam script.
- If you require support for exams/assessment, ensure that you have completed the appropriate paperwork and submitted it to the [Disability Support](#) well in advance of any assessment or exam dates.

### 3.3 Reassessment

Reassessment must assess the same learning outcomes as the prescribed assessment, and therefore all reassessments will conform in structure and subject matter to the original assessment, with the scope of group assessments being reduced as appropriate for individual assessment.

### 3.4 General Submission Requirements

1. All relevant provisions of the Assessment Regulations ([QAH Part B Section 5](#)) must be complied with, in addition to the requirements set out in the Assessment Brief:
  - Students are required to refer to the assessment regulations in their [Student Handbooks](#) and in [Part B Section 5 of the Quality Assurance Handbook](#).

2. Assignments should be submitted through the appropriate link on the module Moodle page (unless explicitly excepted by the lecturer). Assignments not submitted as instructed through Moodle will not be graded.
3. Online assignments must be submitted **no later than the stated deadline:**
  - Late submissions (up to 14 days) will receive the Late Submission penalty (see [QAH Section B Part 5.4](#));
  - After 14 days, late submissions will be awarded **0%**.
4. Extensions to assignment submission deadlines will be not be granted, other than in exceptional circumstances:
  - To apply for an extension please go to <https://students.dbs.ie/registrar-office/dbs-faq> and download the *Assignment Extension Request Form*, to complete and return, with supporting documentation, to your Programme Coordinator;
  - Ongoing exceptional circumstances can be considered for deferrals. To apply for a deferral, submit the completed *Personal Mitigating Circumstances Form*, with supporting documentation, to the Helpdesk.
5. Students are required to retain a copy of each assignment submitted.
6. Dublin Business School penalises students who engage in Academic Impropriety (i.e. plagiarism, collusion, copying, essay mills, etc.):
  - Refer to the [QAH Part B Section 3.3](#) for further information on Academic Impropriety and the potential penalties;
  - Refer to the [Library](#) for information on correct referencing, and support classes.

### 3.6 Useful links and tips

Door codes for Bow Lane are available at Reception desks.

Once registered, a learner should use the calendar in their student email account for personalised timetables.

- . [www.dbs.ie](http://www.dbs.ie)
- . <https://elearning.dbs.ie/> (Moodle)
- . [www.mydbs.ie](http://www.mydbs.ie) (student email)
- . [tts.dbs.ie](http://tts.dbs.ie) for generic timetables
- . <https://library.dbs.ie/>
- . [Lorls.dbs.ie](http://Lorls.dbs.ie) (to access your reading list online)
- . [esource.dbs.ie](http://esource.dbs.ie) (repository of student and faculty research)
- . [servicedesk.dbs.ie](http://servicedesk.dbs.ie) (to log support queries or issues)

If you have any problems with your timetable or require technical support, please log a ticket at [servicedesk@dbs.ie](mailto:servicedesk@dbs.ie).

## Section 4 Academic Calendar

The [Academic Calendars](#) can be found on the DBS website.

It shows the term dates, as well as reading weeks, the Christmas break, and the exam session, including the repeat exams.

## Section 5 DBS Regulations and Quality Assurance

The previous sections set out the structure and requirements of your programme with regard to modules, content and assessment. It is important that all learners are aware that there are College regulations, frameworks and requirements that all learners must adhere to as part of their study with us. The DBS Quality Assurance Handbook (QAH) sets out all DBS's policies relating to student matters, and this set of policies and procedures has been approved through a process with QQI. The QAH is kept under review and policies may be amended or added to address new and emerging issues.

The Quality Assurance Handbook is on the DBS Student website [here](#) and there is a link to it on every Moodle page under **Quicklinks>Academic Policies & Procedures**.

The QAH is divided into sections to signpost you through it and help to identify the areas you may need to access. A list of the sections is given below. The QAH should be your first port of call if you have a question about College regulations, or require assistance with a matter such as an appeal or complaint, for example.

### QAH Table of Contents

- [A.1 Governance](#)
- [A.2 Overarching Policies](#)
- [B.1 Learner Admissions](#)
- [B.2 Learner Supports](#)
- [B.3 Learner Conduct, Appeals and Complaints](#)
- [B.4 Programme Participation](#)
- [B.5 Assessment Regulations](#)
- [B.6 Examination Boards and Award Classifications](#)
- [C.1 Learning and Teaching](#)
- [C.2 Programme Development and Review](#)
- [C.3 Transnational Collaborative and Joint Awards](#)

### 5.1 Key Assessment Regulations

## Quality Assurance Handbook – Key Assessment & Regulations Reminders

### LIMITED ASSESSMENT OPPORTUNITIES (QAH B.5.1.3)

Students generally only have FOUR (4) opportunities to complete a module successfully  
If you do not use an opportunity, and do not defer the sitting, it still counts as an attempt  
Dissertation modules usually only allow TWO (2) opportunities.  
Students who Exhaust their opportunities will be Withdrawn from their programme

### PMCs (QAH B.4.3)

Personal or medical circumstances which impact a students' ability to complete an assignment or sit an exam.  
PMCs must be submitted to your Programme Coordinator within 7 days of the deadline or exam sitting.  
PMCs are not automatically approved.  
PMCs require supporting evidence where available.

PMC  
FORM

LEARNER  
SUPPORTS

### CAPPED MODULE GRADES (QAH 5.5.3)

A repeat attempt on a module incurs a capped mark of 40% on the overall module mark. The individual components may achieve the full grade, but for Transcripts and Award Calculations, a repeated module will be counted as achieving 40%.

If an Academic Impropriety finding requires a repeat, your Award will be capped at a Pass.

## Quality Assurance Handbook

(2019)

### LATE SUBMISSION PENALTY (QAH B.5.4)

Unless an Assignment Extension has been approved, a penalty will be applied to reduce a grade if an assignment is submitted after the deadline.  
Submissions **will not be graded** if these are received more than 2 weeks after the original deadline.

ASSESSMENT EXTENSION  
REQUEST FORM

### ACADEMIC INTEGRITY (QAH B.3.3)

Academic Impropriety (eg cheating, plagiarism, collusion, ghost-writing) are serious offences, and appropriate penalties will be applied if identified.  
Students found to have committed A.I. may be subject to a Fail grade (see No Repeat for Honours) or Withdrawn from the college.  
The Library has classes and support guides on Academic Referencing, Urkund, etc.

LIBRARY SUPPORT -  
REFERENCING

### APPEALS (QAH B.3.5)

Appeal, Verification of Results, and View Script Requests can only be submitted within 7 working days of the release of final results.  
Students are advised to refer to the Appeals Policy closely before submitting an Appeal, to understand what is considered Grounds for an Appeal.  
**Appeals based on disagreement with the academic judgement of the examiner are not considered grounds for an appeal.**  
Appeals submitted without evidence, or as an incomplete request, will not be investigated and cannot be refunded.

APPEALS, VERIFICATION, VIEW SCRIPTS  
POLICIES & FORMS

## 5.2 Programme Specific Regulations

### Research Considerations

It is a requirement of the College that all learners engaging in research within the College sign a declaration to confirm that they have read and understood the *DBS Ethical Guidelines for Research with Human Participants*.

Students or staff working with children must complete Garda Vetting in advance of ethical approval and are advised to conduct the Children's First E-Learning course, an online course provided by Tusla. A copy of the certificate of completion is required for consideration for ethical approval.

## Section 6 Supporting Student Success

One of DBS's strategic objectives is to support student success and enhance the student experience. We enable student success through high-quality services and support. The College provides academic resources, student services, engagement support and infrastructure to provide an outstanding student experience and enable strong academic outcomes. The Student Experience Team ensures that our students have the best possible College-life experience and promotes a DBS community and culture focused on their wellbeing and success. The Team has received awards to recognise their efforts.

### 6.1 The Learner Charter

The [DBS Learner Charter](#), which was revised in early 2022 to reflect the challenges of engagement, defines a number of DBS and learner commitments that will foster a supportive, constructive and positive learning environment for students at DBS.

## Section 7 My Career

### 7.1 Student Careers

The DBS Careers Team is dedicated to ensuring that you are equipped with the right skills to achieve your career goals upon graduation. The Team constantly asks the following questions:

- What is a work-ready graduate?
- What skills does a work-ready graduate need to succeed?
- How can we equip our students with these skills?

During your time in DBS, you will:

- Be given the opportunity to complete a skills self-assessment quiz at various times during your journey in DBS. This will allow you to judge yourself against the skills employers are looking for in graduates, and by following the advice given improve your score throughout your time at Dublin Business School.
- Be asked to complete a number of online mini-modules which will allow you to self-improve across all of the skills employers require from graduates.
- Understand the individual Careers pathway developed for your programme, by following and fully participating in this pathway you will enhance your Career and employment prospects.
- Listen to weekly podcasts with industry influences and leaders
- Attend weekly Careers workshops which have been specifically developed to equip our students for the modern employment market
- Attend Industry events and get the opportunity to talk to recruiters directly
- Have one-to-one sessions with a Careers Coach, which can include areas such as networking, CV preparation, interview skills, job search and building a successful LinkedIn profile.
- have formal and informal opportunities to improve your scores across defined skills, knowledge and attributes that employers are looking for in Graduates.

The Careers Hub is based in Aungier Street behind Reception, and the team can be contacted by [e-mail](#).

## Section 8 My Student Life

### 8.1 Peer Mentor Programme

The DBS peer mentor programme is designed to give students across DBS the opportunity to represent and mentor students by sharing their stories and experiences of college life. Our mentors act as positive role models throughout the year to their respective groups and are sources of information, from orientation through to the end of the year. The mentors help make coming to DBS a more welcoming, less daunting experience for everyone. As well as arranging informal meetings and social events with their mentees, the team assists with any queries or concerns that new students may have. Throughout the year this team of students is supported by our Student Experience Team with whatever challenges and issues they face. This academic year we will have over 100 peer mentors divided across three areas - a programme based, regional (by nation) based, and year-based mentors. Each of our student mentors is given continuous high-quality training throughout the academic year to ensure they are fully engaged in our college experience and best prepared to support their mentees.

### 8.2 Class Reps

DBS was the first private college to engage with USI to train all of our class reps on the NStEP Programme. This programme was launched in 2016 by the HEA, QQI and USI, and applies the best principles of student engagement to enhance and enrich the College's interactions with our Class Reps. Early in the Academic year, your lecturer will look for a nominated class rep from each class. These will then partake in NStEP training and be invited to sit on the Student Council.

### 8.3 Student Council

The DBS Student Council welcomes all students appointed or elected to the role of Class Representative, Peer Mentors, Sports Clubs & Society leaders and members of the Students Union. The Council acts as a platform for two-way communication between the college and the student body. Students who represent the Student Council are made aware that they are responsible for collecting feedback from the student body and notifying the college on any specific issues that arise throughout the term.

### 8.4 Student Entertainment

The Student Experience Team, in conjunction with our Student Union and Societies, organises a full and varied schedule of social and cultural events throughout the year. From Freshers week in September, RAG week, weekly film screenings, cultural excursions and day trips, and the Student Awards in May, there is something for everyone. We also celebrate important cultural and national events such as Holi, Chinese New Year, Eid, St Patrick's Day, 4th July and other National Holidays.

### 8.5 Social

College life is about much more than just education. Through our broad range of clubs and societies, our students get to enjoy the full student experience, which extends beyond lectures and exams. The DBS Campus is Dublin City Centre, and we use all of the extra-curricular and recreational opportunities that our unique location offers. DBS recognises that clubs and societies are key to enhancing and enriching a student's experience while in college. We, therefore, encourage all of our

students to get involved. Besides doing something that they love and enjoy, they will meet new friends with similar interests, meet fellow students on different programmes, and develop as a person. Whatever the interests, there is a club or society for everyone! For Club and Society Leaders it is an opportunity for personal development and demonstrating key graduate skills to potential employees.

### **8.6 Societies**

All Society Officers take part in a comprehensive training programme which covers areas such as leadership, event management, teamwork and conflict resolution. They feed into a strong support network, led by the Student Experience Team in partnership with Student Union Officers. On successful completion of their tenure, the leaders receive a digital badge which gives official recognition and can be displayed on their LinkedIn profile. The College has over 50 societies across different interests, activity-based, special interests, religions, International and cultural and volunteering and social.

### **8.7 IT Helpdesk**

Support will be provided by the DBS administrative, facilities and IT support services. IT can be contacted for support by logging a ticket on Moodle.

### **8.8 DBS Library**

Multiple supports can be accessed through the Library and Academic Hub. Multiple support classes are available. To see the range of support classes available, or to book a support class please visit the library page: <https://libcal.dbs.ie/calendar?cid=-1&t=g&d=0000-00-00&cal=-1&inc=0>

## Section 9 My Health and Wellbeing

### 9.1 Counselling Services

DBS offers a free confidential counselling service for all students. This is provided through our counselling partners, MyMind.ie, ensuring confidentiality and a guaranteed appointment with a counsellor within 72 hours. Since COVID-19 these are all provided via on-line and video link services.

In order to access counselling please email the [Student Welfare Officer](#) who will arrange to meet with you and discuss your needs in a sympathetic and confidential manner.

### 9.2 Disability and Inclusion

DBS have a dedicated Disability and Inclusion Officer who works closely with other areas of the college including Faculty, the Library, and Exams to ensure that any student's special needs are catered for.

The purpose of the Disability Supports Service is to ensure that programmes and facilities are accessible to students with disabilities, long-term medical conditions, and long-term mental health conditions. The Disability Supports Service aims to provide support for these students to assist in their achievement of educational goals. Eligible students should register with the Disability Supports Service to ensure they receive the appropriate assistance during their studies.

We encourage you to register with the [Disability Supports Office](#) as early as possible in order to avail of support and accommodations. We recommend that:

- Students should contact the Disability and Inclusion Officer to make an appointment to discuss their requirements.
- Students must produce a professional assessment of their disability or medical certification of their condition.
- The Disability and Inclusion Officer will put in place the required accommodations.
- Students may liaise with the Disability and Inclusion Officer throughout their time in DBS.

All students who register with the Disability Supports Office are entitled to double the allowance and double the loan period of Library material. Students may also avail of a one-to-one session with the Information Skills Librarian on how to find, evaluate, cite and reference information.

### 9.3 Student Well-Being Programme

The student Calendar focuses on Health and Welfare early in the College Year, with themed weeks on Mental Well-being, Disability Awareness, and Consent, within the first five weeks of College. These weeks specifically make incoming students aware of the support that they have, both at an institutional and peer level. DBS facilitates regular student well-being and mental health workshops in conjunction with Jigsaw, The National Centre for Youth Mental Health. These are compulsory for all student officers, and club and society officers, and are open to all other students. We also run regular dyslexia workshops which are always excellently attended.

#### **9.4 The Student Engagement and Success Unit**

Dublin Business School (DBS) welcomes and supports all new entrants in their transition to third-level education. As part of this commitment, DBS has established a Student Engagement and Success Unit (SESU), which aims to help all new students at DBS transition successfully into Higher Education. Starting the first year of college is a transition in everyone's life. SESU is there to help learners make this transition, so if learners are having difficulty settling into college or simply making a start in their programme, SESU is there to help.

As part of Dublin Business School's SESU, we have a number of student learning supports to offer to both new and continuing students for 2023/24. These include SESU Drop-in sessions – Tea & Talk, SESU Workshops for Numerical Skills, Academic Writing & IT Skills as well as Research skills & referencing delivered by our Award-Winning Library Team. Our Peer Mentor Programme also provides peer support across all programmes throughout the academic year.

There may be times when learners will need support and assistance with their studies or with personal issues and SESU is there to help.

SESU also keeps abreast of developments in the field of student engagement, curriculum design, policy, writing and teaching learning and assessment.

## Section 10 Conclusion

We hope you have found the programme handbook helpful. If you have any queries, please contact your Academic Director or Programme Coordinator. Their contact details can be found in Section 1 of this handbook.

Enjoy your time at DBS!
