The purpose of this handbook is to provide you with a summary of resources, regulation, policies, and procedures for this programme. Please note that the official sources for all rules, regulations and assessment relating to programmes are published and can be viewed on the DBS website. This handbook is not intended as a substitute for these, or other official documents, which take precedence in all cases. Some of the information outlined in this handbook may be subject to change.

Programme Structure

Overview

The goal of this programme is to ensure that you acquire innovative skills and knowledge in cloud platform technology

When you start your journey with DBS, you will be assured that you are participating in a programme that has been validated and approved by the Irish state agency, QQI (Quality and Qualifications Ireland), responsible for validating all third level programmes in Ireland. The programme is positioned as a Special Purpose Award at Level 7 on the National Framework of Qualifications (NFQ), a framework for the development, recognition and award of qualifications in Ireland.

Structure

The programme is will be delivered over one year in both full time and part time modes

At level 7 you will demonstrate complex learning such as the ability to analyse problems and apply solutions to a variety of scenarios and typical business cases.

On the following page you will see an overview of your programme. This overview includes:

- the modules delivered at each stage, both mandatory and elective
- the NFQ Level that each module is delivered at
- the number of credits for each module
- the total number of credits at each stage
- the percentage weighting each stage contributes to your award classification

Your goal is to achieve **30 credits** and to achieve the best award classification possible.

It should be noted that for part-time delivery a stage is not equivalent to a year. Refer to the part-time timetable for this structure.

All our programmes at Dublin Business School contain a strong focus on developing employability skills across each level of the programme and retain a focus on employer needs and graduate skills. This is evidenced in the module design across the programme.

Stage/Level	Module Code	Module Title	Credits
Stage Award Level 7(QQI)	B7AC003	Fund Accounting	10
	B7AC005	Markets and Instruments for Fund Accounting	10
	B7AC007	Fund Industry Regulation and Governance	10
Level 7	OVERALL TOTAL CREDITS		30

Springboard requirements

You can visit the Springboard website and consult your queries there. www.springboardcourses.ie

Please note that registration with HEA is not related to your registration in Dublin Business School.

First registration

As most courses will run the length of an academic year, students will be expected to register twice, once in each semester (or equivalent points).

Re-Registration

As per previous years, students will need to re-register in the second semester.

Process

Twice during your programme you will be asked by your Programme Coordinator to go to www.springboardcourses.ie, log in and register by clicking on the REGISTER (First registration) or the RE-REGISTER (Second registration) tab. See capture below:

Code	Title	Tag	Applicant (User ID)	Date	Download	Documents	Status	Acceptance Deadline	Last Update	Fees Req.	Re-registration	Outcome	Archive
BHD000A_1P00	Highly Creative in Science or Data Analysis (5-credits) (21 Credits, Commenced) (September 2016)	ICT Skills 2016	Aislinne Lynch (24918)	21.07.16 30/06/2016 1308.000		Marica	Enrolled	19/06/2016	16.29.07 13/03/2017	Yes	Yes	Please stop Take	Archive Web Connect

As this is not a DBS requirement, if you encounter difficulties you will have to contact the Springboard support at support@springboardcourses.ie

You can register using a desktop, laptop, tablet or even your smartphone. It takes less than 2 minutes to do the whole process.

Students who fail to register or re-register are automatically withdrawn from their course at DBS, losing access to their Moodle notes.

You will receive notifications via email and text messages when both registrations are taking place.

Springboard Status

- Complete Successful: This is the status used when the student has successfully gained the outcome/award for the course.
- Outcome Pending should be used when the student has completed the required course work or exams but is awaiting the final results.
- Complete Unsuccessful: This is the status to be used when a student has not gained the target course outcome, either due to leaving (after having registered) or not attained the required academic standard to gain the course award.

Unlocking Springboard accounts

After the last final exams, students will have to wait a minimum of three weeks for their final exam results to be released. Final transcripts will be issued and only then, Springboard accounts will be unlocked allowing students to apply for other courses within the Springboard scheme. Under no circumstances students's Springboard accounts will be unlocked before this stage.

Important information

A person who withdraws from a Springboard+ course before completion is, in general, not eligible to take up a place through Springboard+. However your application will be considered if your withdrawal from the course you were on was for a valid personal or medical reason. The decision to offer you a place is made by the college you are applying to and is subject to the college's admissions policy and entry requirements. Where there is a high demand for courses priority will be given to those who have not previously benefited from a Springboard+ course.

The Guideline for providers regarding former Springboard+ participants who wish to take up a Springboard+ place can be found here: [Guidelines on applications from previous Springboard+ participants 2016.pdf](#)

Class Representative System

The need for a Class Representative System is essential. Each undergraduate class has to appoint two Class Representatives. They then liaise with learners and faculty and co-ordinate student feedback and student input to the course review process.

At the beginning of the academic year, Class Representatives will attend Class Rep training. This Training will be co-ordinated and run by Student Services. Class Representatives will have two meetings with the Programme Leader and two meetings with Student services during the academic year and formal reports of these meetings will be part of our formal review process.

Each Class Representative who is active during the year will be entitled to a letter of recognition to acknowledge and validate their participation in the programme. These letters will be completed by Students Services with the backing of Programme Leaders.

Student Feedback Questionnaire

Questionnaires are completed by students on Moodle twice during the academic year to provide the opportunity for each individual to contribute directly to the course review process. Immediate issues are addressed as soon as possible and recommendations are reviewed for following academic years.

Assessment

The purpose of assessment is to ensure that you achieve the learning outcomes of each module. Learning outcomes are statements that specify what you will know or be able to do as a result of a learning activity. Assessment types vary depending on what learning outcome is being examined. For example, if you are learning a computer language then you may be assessed by a practical lab exam, or project work. For more theoretical modules a report, essay or case study would be more appropriate. Many modules will also include traditional style examination as the assessment type. It is important that you familiarise yourself with the assessments format, number of assessments, assessment weighting, and due dates. These are published in the Module Guide. All assessments are marked and graded by your lecturer, and are reviewed by an internal moderator and an external examiner. This is to ensure fairness, consistency of marking and the correct standard across all assessment. Results are always provisional until they are approved by the external examiner and are processed through the programme exam board. The purpose of an exam board is to formally ratify results and determine award classification (for more information please refer to the Quality Assurance Guide)

The assessment schedule is published on MOODLE.

The exam timetable is published on the exam page in the DBS current student area. Your goal is to achieve the highest mark possible in your assessment.

- Complete ALL assessment components.
- Submit all assessment on time as indicated on the assessment specification.
- Complete all parts of each assessment.
- NEVER copy/plagiarise or submit content that is not yours by ensuring that you apply the correct referencing standard.
- Always ask your lecturer if you are not sure about any requirements, not your fellow students.
- Always complete the required number of questions in an exam.
- Practice writing out answers for end -of term exams by doing previous papers, in particular hand writing answers to ensure that you're writing is legible.
- Always write/type your ID number on any assessment or exam script.
- If you require support for exams/assessment, ensure that you have completed the appropriate paperwork and submitted it to the Disability Officer well in advance of any assessment or exam dates.

If you are not in a position to submit your assignment on time, you will have to contact your lecturer (firstname.surname@dbs.ie) and submit an **assignment extension form**. You can find it on the DBS website under the Registrars tab. (<http://students.dbs.ie/registrar-office>)

Examinations

All information needed around examinations can be found on the exams page on our website. Please see <http://students.dbs.ie/exams-office>.

Exams Absence

If you cannot sit the exam for any reason you need to fill in a **Personal Mitigating Circumstance (PMC Form)** which you can find at: <http://www.dbs-students.com/Exams/Default.aspx> .

Supporting documents are required to defer any exam and should be submitted to your programme coordinator in advance of the date of the exam or within 7 days afterwards. **Failure to defer will result in module/s marks being capped at 40%.**

Exam Timetables

Examinations timetables are posted [here](#) with the date, time and location of the exam. Please check regularly in advance of an exam for any changes:

Please also remember to bring your student card to the examination with you.

Should you have any questions regarding the examinations around the exam time, please email the exams office on exams@dbs.ie

Group Work

Throughout the course you will work on a variety of assessment tasks that will require you to work both in a group and individually. You may worry that working in a group will be difficult. Typical concerns include members not meeting up; not turning in high-quality work and not making the deadline are common. However, with careful planning, consistent communication and recording of individual contributions, these concerns are usually not an issue. This is an important element of the course for improving your team work skills.

Group Work Tips

Plan

At the beginning of the project, assign tasks evenly and set deadlines for when you want to have certain parts of the assessment completed. This way, certain group members don't feel like they are doing everything and everyone has a clear goal of when to complete their portion of the work. All group assessment must be submitted with an individual contribution report.

Communicate

Tell your group members the best way to reach you (email, text, Facebook) and respond within 24 hours, ideally sooner if you can. Sometimes not having a quick answer to a question can hold up the entire project. Responding quickly avoids frustration and gives your group members confidence that you are part of the team. Keep the communication open and update group members regularly.

Be Professional

Always be respectful towards your fellow student. As deadlines loom you can become frustrated and angry with other group members. You must ensure that when you are talking face-to-face, emailing or on Social Media that you are not offensive to your team members. All verbal and written communication must be professional, polite and appropriate. DBS is a multi-cultural environment and it is likely that you will be working with students from diverse backgrounds. Be appropriate and always professional. When communicating in an online environment such as Facebook, etc. you must take care to use appropriate, polite language and tone at all times.

The use of offensive, 'bad language' or violent, aggressive behaviour is NEVER acceptable and is not tolerated in DBS and will result in serious sanctions where this occurs

Be prepared when you meet up to discuss the project. Group members will have busy schedules between classes, work and family commitments. Try to stick to agreed meeting times and ensure that when you do have face-to-face meetings that you have done the work that you have agreed to do. **Proof read your portion of the assignment.** This saves time on the back end when group's members have to put everyone's work together. It shows that you cared about your work and the group's grade. It will also indicate that you looked over your materials and are prepared for the presentation if there is one.

School Administration

Attendance

Students are expected to attend all of their classes. Student attendance is monitored through the process of 'tagging in' to classes. If you do not tag into your lecture you will be marked as absent.

If you have forgotten your student card to tag in with then you need to make your lecturer aware during or directly after your class. They will need to confirm in writing that you attended the class with your programme coordinator.

Student attendance percentage is now available to view on your Moodle page.

Full details of the attendance policy are available in the [QAH](#) on our website.

Policy on Recording

It has come to our attention that in recent times some students have recorded lecturers. Please note that it is DBS policy that no student may record sound or video in a teaching situation, to include lecturers, seminars, tutorials or labs, without prior written consent of the lecturer and the other participating students. Only in cases where there are personnel mitigating circumstances of a student will requests of this nature be considered. A formal request must be made prior to any recording, and academic staff have the right to refuse where other mechanisms to support the student can be instituted.
