ONLINE OPEN AND CLOSED BOOK EXAMS

WHAT IS AN OPEN BOOK EXAM?

An open-book exam is a type of assessment where students can refer to external materials, such as notes, text books, or other external materials during the exam time.

An open book exam is still a timed assessment. While you can refer to materials during the exam any work that you submit must be written and produced entirely within the exam time. Materials can be referred to during the exam but can not be directly copied from, duplicated, or transposed into your answer.

Learners are being graded on their ability to demonstrate their knowledge, understanding, and how they can apply this to the subject. It is not an assessment of the learners ability to copy from pre-prepared work.

WHAT MATERIALS CAN I USE DURING AN OPEN BOOK EXAM?

During an open book exam you can refer to...

- Your lecture notes
- Your own revision notes
- Text books
- Internet sources

You can not...

- Copy, duplicate, or transpose, any work or notes created before the exam in to your answer.
- Use any generative AI, messenger, paraphrasing, grammar correction, translation, or dictation software, applications, or plugins.
- Use a second electronic device (Laptop, tablet, Mobile phone) during the exam. You can only use the device that is logged in to the exam platform
- Communicate with anyone, other than the invigilator, in anyway during the exam.

You must adhere to the colleges policy on academic impropriety and exam regulations. If you do not you will be investigated for academic impropriety and your answers deemed inadmissible.

WHAT IS A CLOSED BOOK EXAM?

A closed book exam is a type of examination in which learners are not allowed to use any additional materials or resources during the exam unless explicitly instructed to do so as part of the test.

In a closed book exam, students are expected to rely solely on their own knowledge and understanding of the subject matter. The purpose of a closed book exam is to assess the students' ability to recall and apply the information they have learned from their course.

During a closed book exam, learners must not:

- Access, refer to, or use any materials (notes, text books, online resources etc) during the exam
- Access any websites other than the online exam invigilation platform
- Communicate with anyone, other than the invigilator, in anyway during the exam.

You must adhere to the colleges policy on academic impropriety and exam regulations. If you do not you will be investigated for academic impropriety and your answers deemed inadmissible.
